green-POD

green-POD changes everything in plant protection.

- green-POD – is the new way to protect and grow healthy seedlings
- Made from 100% recycled paper, heavy duty 1.25mm thick board, green-POD does not have plastic coatings so it protects the surrounding environment
- Life expectancy of 18 months+, recycled paper breaks down during growth of seedling
- green-POD's natural colour reduces the visual impact on the environment
- Guard shields seedling from intense heat and weather fluctuations
- Simple to install
- Protects from browsing animals and herbicide spray
- Convenient built in weedmat on the triangle green-POD
- Add the weedmat to the round green-pod
